

# GILSON CREATED OPAL

# ROUGH

## COLOR VARIATION

actual size

The same Opal but viewed from three different directions.

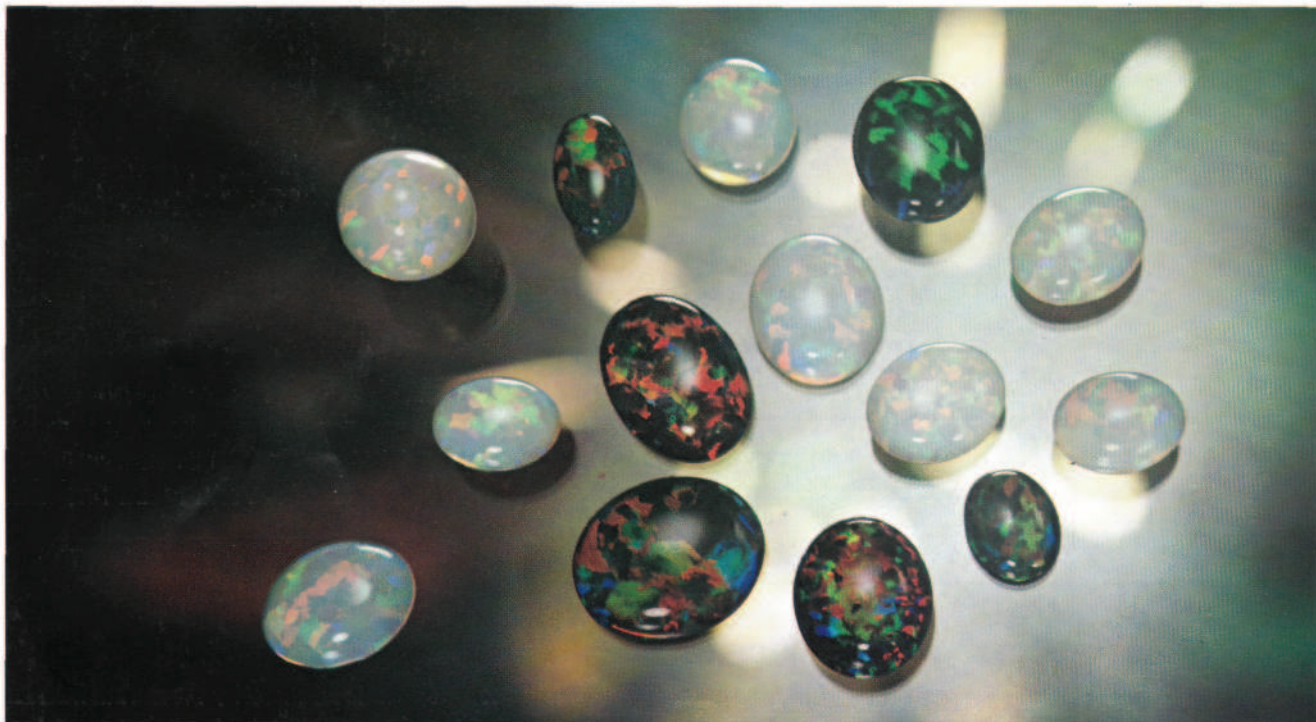

GRADING is based on :

- 1) Play of color
- 2) Size of pattern
- 3) Degree of perfection

The ROUGH Gilson Created Opal has always the shape of slabs 4 to 7 mm thick.  
Surface from one to four square-inches.

The low qualities can be purchased only when available.  
They are not produced intentionally.
